Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Fukushima et al.

Fukushima teaches an order management system and method considering budget limit.

Specifically, Fukushima teaches an order management system for automatically placing an order with one of a plurality of suppliers when order information is input by one of a plurality of orderers, the order management system comprising:

- a terminal unit provided to each of the orderers, the terminal unit including means for inputting the order information, the order information being transmitted to a communication network; and
- a central management unit receiving the order information from the terminal unit through the communication network, the central management unit including collection processing means for managing order history information and section information with respect to each orderer, the collection processing means calculating a total cost of previous orders based on the order history information of one of the orderers sending the order information and order information sent from the one of the orderers, the central management unit also including order permission means for permitting an execution of an ordering process when the calculated total of the previously ordered costs is within a budget of the orderer, the budget being included in the section information (column 1; line 51 – column 2; line 8).

Art Unit: 3627

Examiner notes that the central management unit of Fukushima represents Applicant's Host.

Fukushima also teaches when the summed cost of previously ordered supplies exceeds the budget 82d of the department or section, the collection processing unit 76 sends, in step S8, an error message to the personal computer 1a of the terminal unit A. Then, the personal computer displays, in step S9, the error message, and the routine is ended. Thus, it is prevented that a particular department or section places an order by exceeding its budget (column 7; lines 34-44). Examiner notes that this teaching represents Applicant's alarm system.

Examiner further notes that Fukushima's teaching of calculating a budget history represents automatically calculating a budget report. In addition, since the system tracks and monitors all purchase requests (expenses), the system also automatically creates an expense report. The same holds true for an excess budget report.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Kramer whose telephone number is (703) 305-5241. The examiner can normally be reached on Monday - Friday (8AM - 5PM).
